Art Unit: 1714

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Zunker.

Zunker discloses silica dispersions wherein the silica is surface modified with polyvinyl alcohol. Relative amounts of silica and PVA taught by the reference at least overlap those claimed instantly (see examples c11-c12 and 11-12).

Applicants claimed particle size is seen as inherent to the Hi-Sil 215 taught by the reference.

Claim 2 is allowed.
